SUMMARY OF ADMINISTRATIVE DUTIES

The Director of the Clinical Child Psychology Program (CCPP) reports to the Dean of the College of Liberal Arts and Sciences (CLAS), and serves both traditional roles of *Program Director/Director of Graduate Studies* and *Director of Clinical Training*. Because the CCPP is an independent degree program with a separate cost-center from other units on campus, the Director holds a level of oversight that is consistent with a position of Chair in other Departments with primary responsibility for (a) management of an annual budget; (b) faculty development; (c) academic oversight of the graduate degree program; (d) outreach and fund raising; (e) oversight of professional/academic staff; and (f) internal and external leadership to facilitate CCPP goals and objectives.
