& DJ Honeybee

Despite the challenges brought on by COVID-19 since last spring, the past four years at KU have been some of the best years of my life. I am beyond grateful for my friends, family, advisors, and professors who have helped me to learn and grow. I could not have made it without all of you.

This journey has not always been easy, but it has been so worth it. Through resilience, adaptability, and so much hard work, we have made it to the finish line.

Congratulations to my fellow Class of 2021!
